The following was collated from intel sent to our team from Gideon. As always, all intel sent by Gideon is edited by Michael for clarity and for obfuscation purposes (see: Stylometry):

1) Major, World-Changing Events Are Planned for 2025 & Beyond

All intel indicates the cabal is preparing a multi-pronged approach to terrorizing and traumatizing the public in 2025, through staged events ranging from a fake pandemic, an economic collapse and the introduction of a social credit system, known as "Obsidian", that will entirely compromise the individual free will of every person ensnared by its apparatus.

Gideon warns that "2025 is the year" for the cabal to finally coalesce and initiate "countless operations" that have been planned for decades.

He warns a number of his colleagues and sources have seen intel that has caused "some of them to quit their jobs and leave their homes" in an attempt to flee the coming events. Gideon warns there is "no safe haven" except for cabal-protected enclaves in "Switzerland, New Zealand, protected areas in Europe, the intermountain West of the United States and the southern part of Chile and Argentina." He says most of these areas are "remote" and too expensive for the general public to escape to.

Ultimately, those with Sovereign status within Obsidian will be fully protected. Not only will the astounding wealth they have acquired through *secretly buying* USDR provide them with multiple options to reach these safe havens, they will be protected entirely by Sovereign status itself, which will grant them full immunity from vaccination requirements, social status, credit requirements and travel restrictions.

The threat assessment includes the following intel:

a) Tens of thousands of Starlink satellites circling the globe offer Internet access only as a cover story. Their true and main purpose is surveillance and targeted weapons, that can target individuals with pinpoint accuracy and interact with the nano particles already present in the human body.

b) The cabal is using an extremely advanced A.I. to direct news and political events, one so incredibly advanced that daily scripted narratives are imperceptible from real life, random events. An example is the U.S. Presidential election in which day to day news events, narratives and stories are actually *entirely* manufactured. Additionally, thousands of cabal gatekeepers are operating on both sides of the political spectrum to influence their followers. As long as people believe these influencers and follow them, the cabal's control remains untested. (Influencers include Sovereign gatekeepers which we exposed two years ago, some of whom are listed here.)

c) The food system of the world is under major threat, as nano technology has already been introduced to it on a mass scale (this occurred from 2020 to 2022). These nano particles integrated themselves into the bodies of Billions of people over those two years, and remain in their bodies. There are also now exotic technologies being used that mimic real food. Examples include meat and oranges. They are not real food, but rather created with bacteria. They look very similar to the real product. They have been slowly introduced along with real food, so that over time people do not notice the difference.

d) As indicated from numerous stories posted in our Telegram, bank failures are accelerating and the demise of the fiat system is underway and it will collapse in 2025. How this collapse initiates remains a topic of discussion, as various points of intel actually conflict on how the collapse will unwind. There is some indication there will be a series of bank failures leading to an international crisis, and from this point

"solutions" will be sought; the E.U. will propose a type of CBDC (Obsidian) but Elon Musk and Donald Trump will "counter" that proposal with a type of American "gold-backed" crypto Dollar (Obsidian). The public will be given "two" options that are, in fact, linked to the same system (Obsidian), and the public will be *fooled* into believing the Musk and Trump solution to the banking crisis is the freer, "sound money" solution.

e) Multiple points of intel suggest a power grid and cyberattack staged operation is planned for 2025. There is also intel suggesting that two major worldwide cataclysmic events are on schedule that the cabal knows about, and is preparing for. These events purportedly will occur in 2026 and 2030. We are seeking additional confirmation of what these events will be and entail.

2) Post On GLP About Staged Pandemic Was "Extremely Classified Intel"

A post that briefly appeared on GLP before being quickly deleted by moderators was important intel that exposed a major cabal operation.

The original post is available on our main Telegram here. It includes the following quote, *"The marburg virus is fake. They took back that claim later after nothing was found. However, **they will use a special signal to activate cell phones**. These will then emit specific frequencies that, in combination with the nano-particles that were delivered through the vaxx, cause 'Marburg' symptoms. Some of the vaxxed will drop dead quickly. Even some of the non-vaxxed will develop symtoms, **as nowadays a lot of people already have nano-particles in them.**"*

It lists a timeline, with the fake outbreak starting November 24th of 2024 and the first lockdowns taking place by February 25th of 2025. Gideon says multiple sources of his own confirmed the post was legitimate, and quickly deleted once it appeared. It is presumed some of the operational parameters may change and some of the dates may change due to the fact the intel was briefly exposed.

3) Gideon's Guide Reports The Vast Majority Of The Resistance Is Unprepared For What Is Coming

As discussed in multiple previous Intel Drops, Gideon's personal guide and spiritual teacher continues to provide important guidance and intel. This individual has never failed in their predictions and is considered a trusted, reliable source. She has recently said many people who believe they are part of a resistance against the New World Order, the WEF and Agenda 2030 are *entirely and completely unprepared* for what is coming.

Gideon's guide expressed that in the spiritual realms, there is *grave concern* due to this lack of preparation and lack of understanding of what is coming.

Multiple issues are at hand:

a) Millions of patriots and resistors are *already* classified as "Restricted" and "Quarantined" *within* the coming social credit system, Obsidian. Their financial and personal freedoms will be severely curtailed once Obsidian comes online. This will even occur within the Elon Musk and Donald Trump-backed CBDC alternative, which will be cloaked and couched in freedom-sounding rhetoric and offer some slight differences to the E.U. version.

b) So-called "Anti-semitism" has been *allowed* to *flourish* online the past year so that the individuals espousing and expressing such beliefs could be *identified*. Criticism of Israel has also been allowed for this reason. Any person not using a VPN, who exposed their IP address online, or who used their real name online, and who liked, commented on or made any public statement against Israel or against Jews has *already* been tracked, logged and identified by the cabal's robust surveillance systems. At some point, the social credit system will *severely punish* these individuals due to their public "anti-Semitic" comments and activities. Donald Trump and Elon Musk will *support* these censorship efforts.

c) Due to the fact the fiat system will "Reset", millions of patriots and resistors will lose *all* of their current funds, including their 401ks and retirement funds, and they will be left at the mercy of the UBI or universal basic income issued by Obsidian via the future CBDC, called USDR. They will also be forced to follow the restrictions imposed by Obsidian to receive any additional supplementary income to pay for food and bills. Since *only* Sovereigns are allowed to currently convert their fiat funds into USDR, only cabalists (and our team) will have any measurable funds after the Reset.

d) Those who are "prepped" and prepared via food stockpiles and off-grid arrangements are already known, tracked, logged and monitored by the cabal and Obsidian's surveillance systems. They will be visited by advanced drones that will target them, set fire to their homes and land, or use a multitude of other targeted measures to disable their ability to live freely. Many of these drones have now been extensively tested on the Ukraine battlefield, but the most advance ones have not yet been publicly unveiled.

4) Data Breach Hackers Contact Gideon

Gideon has recently been given extremely important intel retrieved from a group of hackers who have broken into part of a major worldwide bank's software systems, which appear to be loosely tied to Obsidian. Some of what they have found confirms all of our intel posted since 2022 by our team.

The hacked data has revealed new, disturbing insights into what is being planned by the cabal via Obsidian. Most of the hack revealed documents and internal memos, directing project managers on how to integrate their bank with Obsidian's social credit systems and its *direct* link to Starlink, something heretofore unconfirmed. Some of the documents show links to Elon Musk and Obsidian, as well. Most important of all, the documents allude to an 'event' in 2026 involving expected Earth changes, which the bank in question is preparing for.

Gideon is still reviewing the documents, which are being shared with him via a secured encrypted portal, and vetting the hackers who contacted him. So far, there are no "red flags" associated with this hacking group or the documents themselves, but further verification is needed.

Once fully confirmed, the full details revealed by this data breach will be shared *only* with our team on our private password-protected update page in the coming months. This is because the hackers involved have requested certain details *not* be revealed publicly to protect them, but they have agreed to allow us to share them privately with our team.

If you would like to join our team, we do have applications open at this time. We are looking for patriots and freedom-minded individuals who wish to have their status changed to Sovereign status within Obsidian, and join us in our long-term fight to destroy Obsidian once it comes online. Additional information can be found on our website at CBDCIntel.org.

5) Gideon Warned Of Cabal Plans To "Distort" CBDC Intel

Gideon has been warned by a reliable source that in 2025, the cabal will use some of its popular gatekeepers in the Alternative Media to highlight actual intel regarding Obsidian. This intel will coincide and may even be lifted from our own Intel Drops.

The purpose of this operation is to introduce *disinformation* into the very real intelligence our team has revealed. Gideon was told by his source that "a little too much info came out about Obsidian from you guys, so they're going to counteract it." He was told to be prepared for our team to be further smeared, attacked and censored in 2025 by cabal agents, while the gatekeepers "act like the intel is their own and distort what you've done, or probably just whitewash it like you never existed in the first place."

How this operation will go about is unknown. We are prepared for it or any other attempts by the cabal.

This concludes our Intel Bulletin. Our next Intel Drop, with discussions between Bill and Gideon, is expected to be posted in early November.
